In some schools, pupils have to wear school uniforms. Many people believe that this is a good idea. It is much easier for parents, because they don't have to think about what their children should wear to school. It is also easier for the pupils themselves, because they do not have to spend time deciding what to wear each morning. Usually, children take ten minutes longer to get dressed when they do not have uniforms. It is also easier for families that have less money and can't buy expensive clothes.

3 Выберите фотографию и опишите человека на ней. У вас есть полторы минуты на подготовку и не более двух минут для ответа. У вас должен получиться связный рассказ (7–8 предложений). План ответа поможет вам:

- 2) a nice place to go fishing.
- 3) one of the biggest lakes in the world.
- 4) a fresh water animal.
- 5) a lake with an island in the middle.

- B. Lake Michigan is the only one of the five lakes to be completely located inside the United States, the other four lakes are shared by the U.S. and Canada. Technically, it is the same lake as Lake Huron as they are linked by the Strait of Mackinac. The word "Michigan" comes from the native American word *michi-gami*, which means "great water".
- C. Lake Huron is the eastern part of Lake Michigan-Huron. It was actually the first of the Great Lakes to be discovered by European explorers. One of the most interesting features of the lake is Manitoulin Island, which is the largest freshwater island in the world.
- D. Lake Erie is the shallowest of the five lakes, its average depth is only 19 meters. It is the largest freshwater fishery in the world, boosting the economy by over 1 billion dollars every year. People from all over the world come to Lake Erie to fish.
- E. Lake Ontario is the last on the Great Lake chain and serves as the outlet to the Atlantic Ocean. Throughout its history there have been 50 people who have swum across the lake. The very first person to accomplish this was 16-year-old Marilyn Bell in 1954.

The youngest person to make the swim was 14-year-old Annaleise Carr. In 2012 she crossed the 52 kilometers in under 27 hours.

A. The Republic of South Africa is the southernmost country in Africa. The area was originally occupied by an ethnic group of people called the Zulu who had migrated to the south from other parts of Africa over a thousand years ago. South Africa later became a Dutch colony and after that — a British colony. In 1961, the country gained independence from Britain and became a republic.

Nelson Mandela became the first black president of South Africa.

C. The Boer Wars were a series of conflicts between the Dutch settlers of South Africa (the Boers) and the British colonists. B. The Colorado River is one of the most important rivers in the southwestern United States. The river is most known for its amazing nature. It flows through eleven National Parks and is surrounded by canyons. It is a huge tourist destination with people from all over the world visiting the Grand Canyon and embarking on exciting rafting trips.

C. The Rio Grande River is, together with the Colorado River, one of the main rivers in the southwestern United States. It serves as part of the natural border between the United States and Mexico. After a series of agreements, it was decided that the two countries would share the water from the river.

D. The Missouri River is the longest river in North America. For thousands of years the river has been a source of transportation. An elephant's trunk is probably the most useful nose in the world. Of course, it is used for breathing and smelling, like most noses are. A. Hong Kong is a region of China located on its southern coast, with most of its urban areas concentrated on Kowloon Peninsula and Hong Kong Island. C. In 1842 Hong Kong became a colony of the British Empire as part of the peace treaty after a war between Britain and China. Over the years the colony slowly expanded into the nearby islands. A. India is a country in South Asia and is the second most populated country in the world. It is located on the Indian subcontinent. To the north-east lie the Himalayas, a mountain range that separates the Indian subcontinent from the Tibetan Plateau in western China. To the north-west lies the Thar Desert, sometimes called the Great Indian Desert.

B. India is known for its hot weather. This is because India is strongly influenced by the Himalayas and the Thar Desert. They control the flow of the summer and winter monsoons. The mountains stop the cold northern winds coming in from Central Asia. As a result, winters in India are a lot warmer than in other countries in similar geographic locations.

C. Indian cuisine varies greatly depending on the region. Historically India has developed a wide variety of traditional regional food. During the time of the British rule over India, the British Empire acquired knowledge of Indian cuisine. As a result, the UK now considers Indian food part of its national cuisine, producing many Anglo-Indian dishes.

D. In 3000 BC the area was home to the ancient Indus River Valley Civilization. Later it was home to Aryan Civilization that migrated from the north and formed the basis of Indian culture and religion — Hinduism. In the 13th century most of India fell to the Delhi Sultanate and remained an officially Muslim state until the 18th century, when it came under British control.

E. In 1950 India created its constitution, which put in place a democratic and secular republic. Since the 1990s India has flourished, created a large urban middle class and become one of the world's fastest growing economies. When children go to school or even before that, they learn their ABCs. Letters are the building blocks for words. Words are the building blocks for sentences. We use sentences to communicate what we think and feel. Each letter of the alphabet has at least one sound. Some letters have more than one sound. There are 26 letters in the English alphabet. Many of the English letters came from alphabets made many years ago in foreign countries. In fact, the word 'alphabet' comes from two words, alpha and beta, which are the first two letters in the Greek alphabet!

Nowadays, very few people write real letters. We use mobile phones and the Internet instead. Still, there is something very pleasant about receiving a real letter written by hand. Letter writing is something that people have been doing for a very long time. But for a while, only very rich and important people could do it. Not everyone knew how to read and write. Letter writing is important for history. Much of what we know about old times comes from letters that people wrote to each other. In the 18th and 19th centuries, writing letters became a kind of art.

An animal doctor is called a vet. Some vets work for zoos or animal hospitals. Many have their own private offices. Vets do most of the same things that doctors do. They take the animal's temperature, listen to their heart beat and take X-rays. They also decide what kind of medicine a sick animal may need. If an animal is too thin, too fat or has specific health problems, the doctor may recommend a special diet. It takes about six to seven years of university studies to become a vet.

A. Edinburgh is the capital of Scotland. One of the most popular places to visit there is Edinburgh Castle. The castle is the symbol of Edinburgh. It has stood on Castle Rock in the old town since the 12th century. Historians say that this castle has seen more wars than any place in the world. It is one of the few ancient castles in Britain that still have an army.

B. One of the most important things kept in Edinburgh Castle is the Stone of Destiny. This ordinary-looking piece of rock has a very difficult history. It was used for crowning the kings of Scotland. It was later stolen by the kings of England and many wars were fought over it between the two countries for over 700 years before it was returned to its home.

C. Edinburgh was built on Seven Hills. The highest point of all the hills is called Arthur's Seat. It is popular with tourists as it is easy to climb and from there you can see beautiful views of the city. The name comes from the legends of King Arthur. A. Ireland is an island in the North Atlantic. The capital and largest city of Ireland is Dublin. In 1988 the city celebrated its 1000-year birthday. Dublin is a center of the arts, education and industry. It is considered to be one of the top 30 cities in the world. Every year Dublin is visited by countless tourists who are interested in things from art to history to food.

B. One of the most popular lucky symbols of Ireland is the leprechaun. A leprechaun is a type of fairy in Irish folklore. Usually they are shown as little men with beards that wear green coats and hats. According to the myths, they have a pot of gold at the end of the rainbow and spend their time making shoes. If they are caught by a human, they will promise to give him three wishes, if the human lets them go.

C. The Irish Limerick is an important part of the country's culture. A limerick is a form of poetry. It has five lines and is usually rude and funny. People are not sure where the first limericks appeared. Though limericks were first made popular in England by Edward Lear, people say that the first limericks were written by Irish poets from the county of Limerick.

D. The introduction of the potato in the 16th century to Ireland forever changed Irish cuisine. As the country was very poor, by the 19th century the diet of most people was made up of potatoes and milk. A normal family would usually eat over 100 kg of potatoes a week. Because of this, most of the national food of the country has potatoes in it.

E. James Joyce, one of the biggest names in the world's literature, was born and educated in Dublin. He is probably the most famous Irish author. James Joyce wrote novels, short stories and poems. But he is most well-known for his novel "Ulysses", which took him 8 years to write.

There are lots of reasons to eat breakfast, especially for teenagers. Breakfast gives a person lots of energy. If a pupil skips his or her breakfast, they may not be attentive enough at school or even fall asleep in class! A good breakfast also builds strong bones and teeth. Many people have milk and other dairy products for breakfast, which help the body to grow strong teeth and bones. A full breakfast keeps people from getting hungry quickly. A. Hawaii is a collection of six small islands near the centre of the Pacific Ocean. It is always warm in Hawaii, and the islands are very beautiful. On some of the islands, the sand on the beaches is not only white, but also black, red and even green. The Big Island of Hawaii is known for its active volcano. Lava flows out of it every day and makes the island grow.

B. Because Hawaii is so beautiful and warm, it is one of the tourists' favourite places to visit. Millions of tourists visit the islands every year. This creates ecological problems. Big hotels are built in the most beautiful areas, the air and the water are becoming less clean. More and more people move to Hawaii to work in the tourist industry. The traditional Hawaiian culture is disappearing.

C. Hawaiian language is very unique. There are only twelve letters in the Hawaiian alphabet: A, E, O, I, U, K, L, M, N, P, H, and W. This makes it very difficult to translate some of the names and words from other languages. "David", for example, is translated into Hawaiian as "Kawika", since there is no D sound. And "Merry Christmas" is "Mele Kalikimaka"!

D. Hawaiian culture is famous for its beautiful music. The style of slack-key guitar is well-known around the world and is often used in Hollywood films. The ukulele — a very small guitar with only four strings — is a traditional Hawaiian musical instrument which is becoming more and more popular in many countries. Queen Lili'uokalani, the last Hawaiian queen, was a musician and composer. Her song "Aloha 'Oe" has become a symbol of Hawaii.

E. There is a big American naval military base on the island of Oahu called Pearl Harbour. This place has a sad history. During the Second World War, early in the morning of December 7, 1941, Japanese planes bombed Pearl Harbour. This was a surprise attack. The American military were not expecting it, and as a result, most American Pacific fleet was destroyed. This attack made the USA declare war on Japan and Germany.

Long ago, people ate with their fingers. They took their food from one large pot. Everyone had to have clean hands before eating. In 1530, a book of manners for children was written. It said that putting more than three fingers in the pot at once was rude. Knives were the first silverware. People could stick knives into pieces of meat that were too hot to hold with their fingers. Only rich people used forks and spoons in the 1700s. By the 1800s, most people could buy them.

A. New Zealand is an island country in the southwestern Pacific Ocean. In the 13th century the islands were settled by Polynesians who formed the Maori culture, which is considered to be the native culture of New Zealand. New Zealand was discovered in 1642 by a Dutch explorer. In 1840 the Maori and the British signed a peace treaty that declared British rule.

B. Sheep farming is one of the most important and well-known industries in New Zealand. There are 39 million sheep in the country, meaning that for every person in New Zealand there are 10 sheep. Sheep were first introduced to the country in the 1770s by James Cook.

C. New Zealand is in the Southern Hemisphere. So, the months of December, January and February are the summer months, while June, July and August are considered to be winter. This means that Christmas is a summer holiday. Some New Zealanders celebrate Christmas again in the middle of July. The school year begins in February and ends at the same time as the calendar year — at the end of December.

D. The national cuisine in New Zealand is controlled by the local ingredients as well as by the seasons. New Zealand is mainly an agricultural country, so most of the food comes from the sea and the land. A lot of the cuisine is influenced by British food, but also has elements of Mediterranean and Pacific Rim cuisine.

E. The combination of New Zealand's beautiful scenery and its small size has resulted in it becoming the set for many big-budget movies. Some of the most famous include "The Lord of the Rings", "The Hobbit", "Avatar" and "The Chronicles of Narnia". Because of the success and the popularity of these movies, countless people come to New Zealand just to see the place where their favorite movie was filmed.

Long ago, hunters in Australia used boomerangs for hunting. Today, they are used for fun. If you throw the boomerang the right way, the boomerang circles around and returns to you. The secret is in its shape. Most boomerangs are bent in the middle and have two "wings". They work just like airplane wings. As the boomerang flies through the air, each wing turns around the other wing. Throwing a boomerang is not easy, but with practice one can do it so well, that the boomerang comes back to exactly the same place.

Salesman. All right. Here are your apples and oranges. Would you like anything else?

Customer. Yes. Do you have carrots? My granddaughter is going to visit us over the weekend, and she loves carrots.

Salesman. Certainly. I bet her teeth are strong enough for carrots!

Customer. Yes, they are! How much is all that?

Salesman. 20 dollars, madam, but you have a 10% discount, so it's 18 dollars all in all.

Librarian. Let me see. Oh! The first book of "Harry Potter"!

Nick. Yes! Can I please have the second one?

Nick. That's all right. In fact, I want to read the first book one more time. I was reading it too fast.

Librarian. That's a good idea. By the way, tomorrow we will have a special guest at our library. Sarah McGregor. She is an artist. She makes comic books. Would you like to come?
